INSPIRED BY A LEGEND

Mohamed Adeel Aboobaker

FOUNDER • VISIONARY • MENTOR

Maestro Paints is more than just a brand, it is a legacy.

Created in loving memory of our late Former Director, **Mohamed Adeel Aboobaker**, Maestro was inspired by a man whose vision, passion, and determination transformed a humble hardware store in the Durban CBD into one of the industry's respected names, with its home in Springfield Business Park.

Under Adeel's leadership, Sunrose grew beyond local supply, building trusted relationships across South Africa, reaching Lesotho, and extending into neighbouring African countries. His relentless work ethic, business foresight, and unwavering commitment to quality earned him the respect of customers, suppliers, and competitors alike.

He was a fierce leader with a gentle soul, a mentor to many, and a true maestro of the hardware industry. His dream was to expand into manufacturing—creating products that reflected the same excellence he expected in everything he built.

Maestro Paints is the fulfilment of his vision and a tribute to the man who started it all. Every bucket represents the passion, integrity, and excellence that Adeel stood for. Maestro is Adeel, and Adeel is Maestro.

Though he is no longer with us, his legacy continues to inspire every product we manufacture and every customer we serve. His vision will live on through Maestro Paints—for generations to come.

*Forever remembered.
Forever respected.
Forever our Legend.*

BRICK DRESSING

PAINT SELECTION

A premium range of high-quality paints for vibrant, long-lasting finishes
Available in different sizes and colors

BRICK DRESSING

Maestro Brick Dressing is a premium quality protective coating designed to enhance and revive the natural beauty of bricks.

It provides a rich, long-lasting finish that protects against weathering, dust, and moisture while enhancing the colour and texture of the surface.

Protects bricks from harsh weather conditions

Water resistant – helps prevent moisture penetration

Reduces dusting and efflorescence

Enhances and deepens natural brick colour

SURFACE PREPARATION

✓ Ensure the surface is clean, dry and free from dust, grease, oil and loose particles.

✓ Remove moss, algae and previous coatings before application.

✓ Allow new brickwork to cure before use.

HOW TO USE

clean surface

stir well

brush

allow to dry

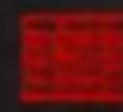

apply second coat if required
